

AD&D STEP-BY-STEP ENROLLMENT PROCESS

1

Apply to Seattle Central College online or in the Admissions Office room 1104-B1.

2

Meet English and Math requirements by testing out in the Testing Office, BE1106, or submitting transcripts to Advising room BE1102D.

3

Contact Advising to be put on the admissions list for AD&D. This step is crucial to enroll in program. It saves your place in line and helps us track your progress.

4

Register and complete Skill Development course APPRL 096. (Fall or Winter) This is the beginning course of a 3-part required series. We recommend you begin the series in Fall to have ample time to meet all your requirements.

5

Register and complete APPRL 098. (Winter or Spring) We no longer require you to test for Computer skills. Please see out handout "Computer Requirements" to make sure you meet these skills before entering the program.

6

Register and complete APPRL 100. (Spring or Summer) You must have Math & English requirements met by or before your completion of this course to guarantee a spot for the full-time program. (See AD&D pre-requisite sheet for APPRL 099 Summer Intensive info.)

7

After completion of the Skill Development series and your English, Math, & Computer requirements, you will be sent enrollment information from the AHSS office. Follow the steps carefully for registration and plan on attending the required orientation the week before classes begin.

For more details, refer to your information sheets
